

TRANSFORMING LOYALTY: SURYAHUB'S STRATEGY TO BREAK THROUGH REVENUE STAGNATION BY JULY 2025

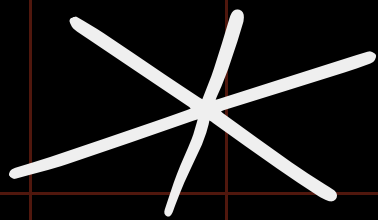

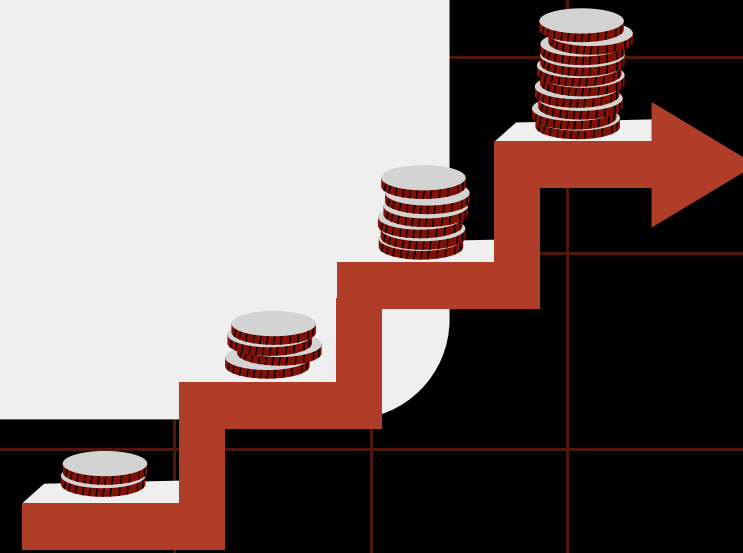

A 4-Week Marketing Personalization Trial
Based on Customer Characteristics

BUSINESS CHALLENGES:

Transaction Volume Rises, Revenue Stagnant

- Transaction volume grew positively, but revenue per customer remained stagnant.
- Mass marketing strategies (Discount-for-All) erode potential profits.

Total Revenue	Avg. Purchase Amount	Avg. Frequency of Purchase	Total Customers
2.1B	4.2M	6.82	499

Data Insight 1 – Membership **Red Flag**

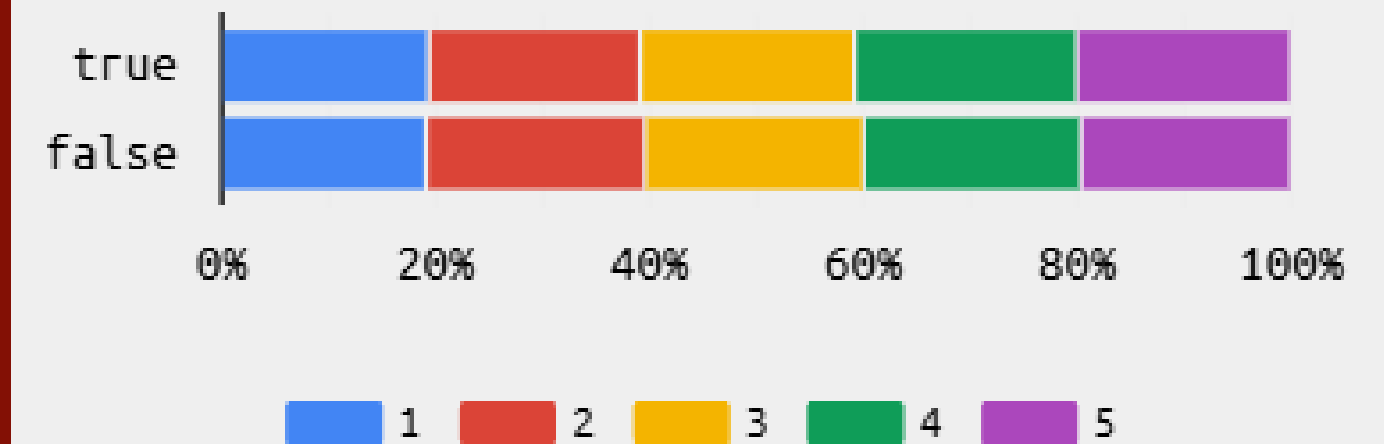

LOYALTY PARADOX:

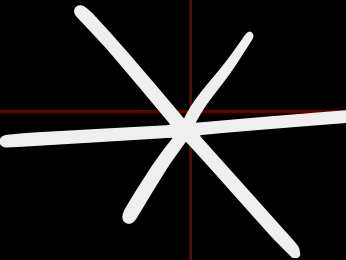

Less Active Members in Shopping

Customers with member status (true) show lower transaction frequency and contribution than non-members (false).

The distribution of loyalty scores (scale 1-5) between members and non-members appears equal, indicating that the current membership card benefits do not have any exclusive value in the eyes of customers.

Member X Brand Loyalty*

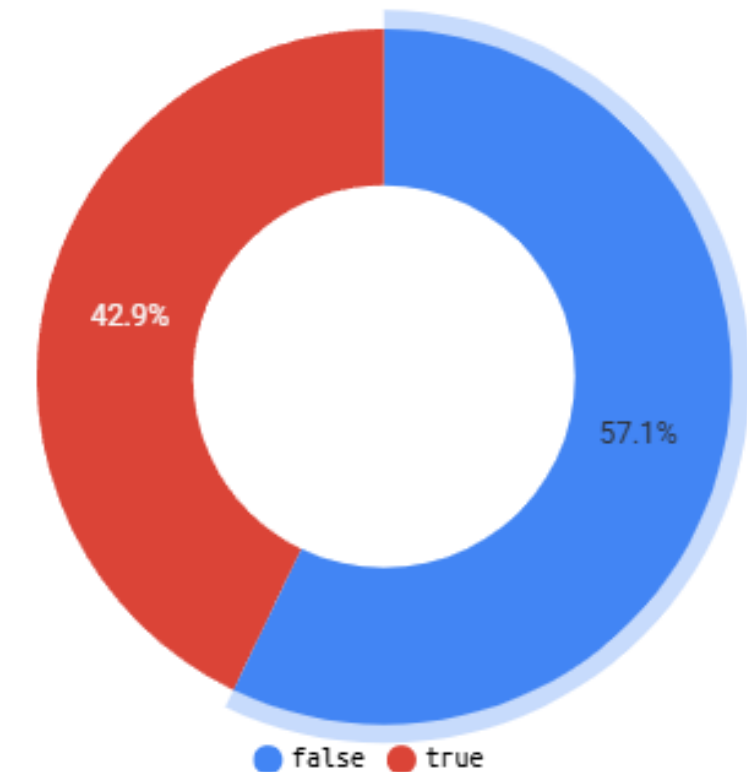

Data Insight 2 – **Characteristics of Loyal Customers** (Value Over Price)

DISCOUNT MYTHS:

The Most Loyal Customers Prioritize Quality

- The majority of customers with the highest loyalty (Brand_Loyalty = 5) shop without using discounts (around ~57%).
- The average loyalty score of **non-discount consumers (3.13)** was higher than that of the **discount user group (2.94)**.
- This group is dominated by **rational buyers (Planned/Need-based)**.

Discount Used by Customer
with Brand Loyalty=5

	Discount_Used	Avg_Loyalty_Score
▶	FALSE	3.13
	TRUE	2.94

GEOGRAPHY & DEMOGRAPHY:

Cultivating the **Women's** Core Market

- The market is dominated by **women (53.1%)** compared to men (46.9%).
- Top 5 Main Cities (Based on **Purchase_Amount**): **Makassar** (leading by a long way), followed by Medan, Bandung, Surabaya, and Jakarta.
- These regions are the main hub for launching targeted local promotion programs (Geo-fencing)

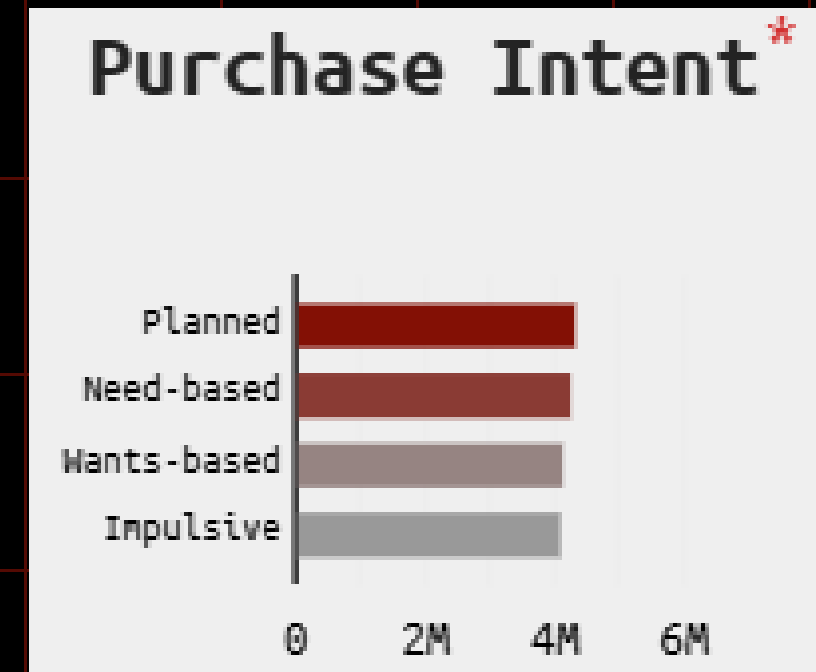

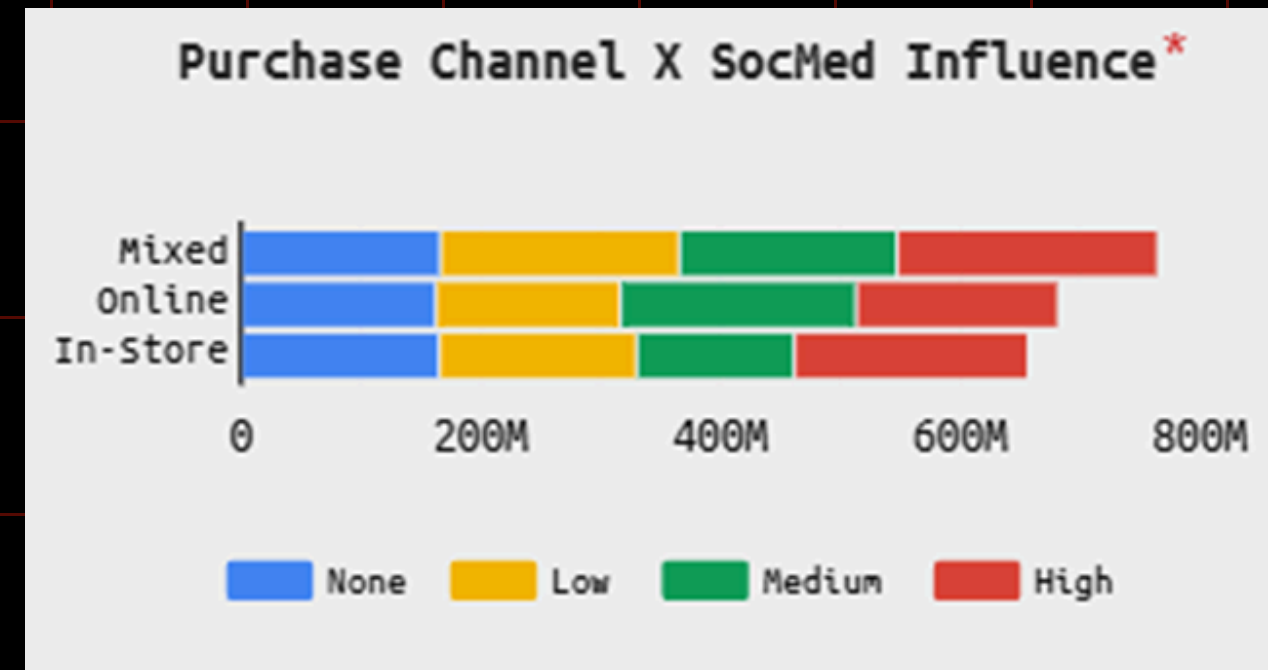

Data Insight 4 – Omnichannel Behavior & Shopping Intention

“PLANNED” SHOPPING INTENTIONS AND THE DOMINANCE OF THE “MIXED” CHANNEL

- Channel **Mixed** (order online, pick up in store) recorded the highest total sub-section sales (nearing 800 Million on the chart).
- Consumers who choose the Mixed channel are dominated by groups with a **high social media influence category** (red).
- The purchase intention category is consistently dominated by the **Planned** and **Need-based** types.

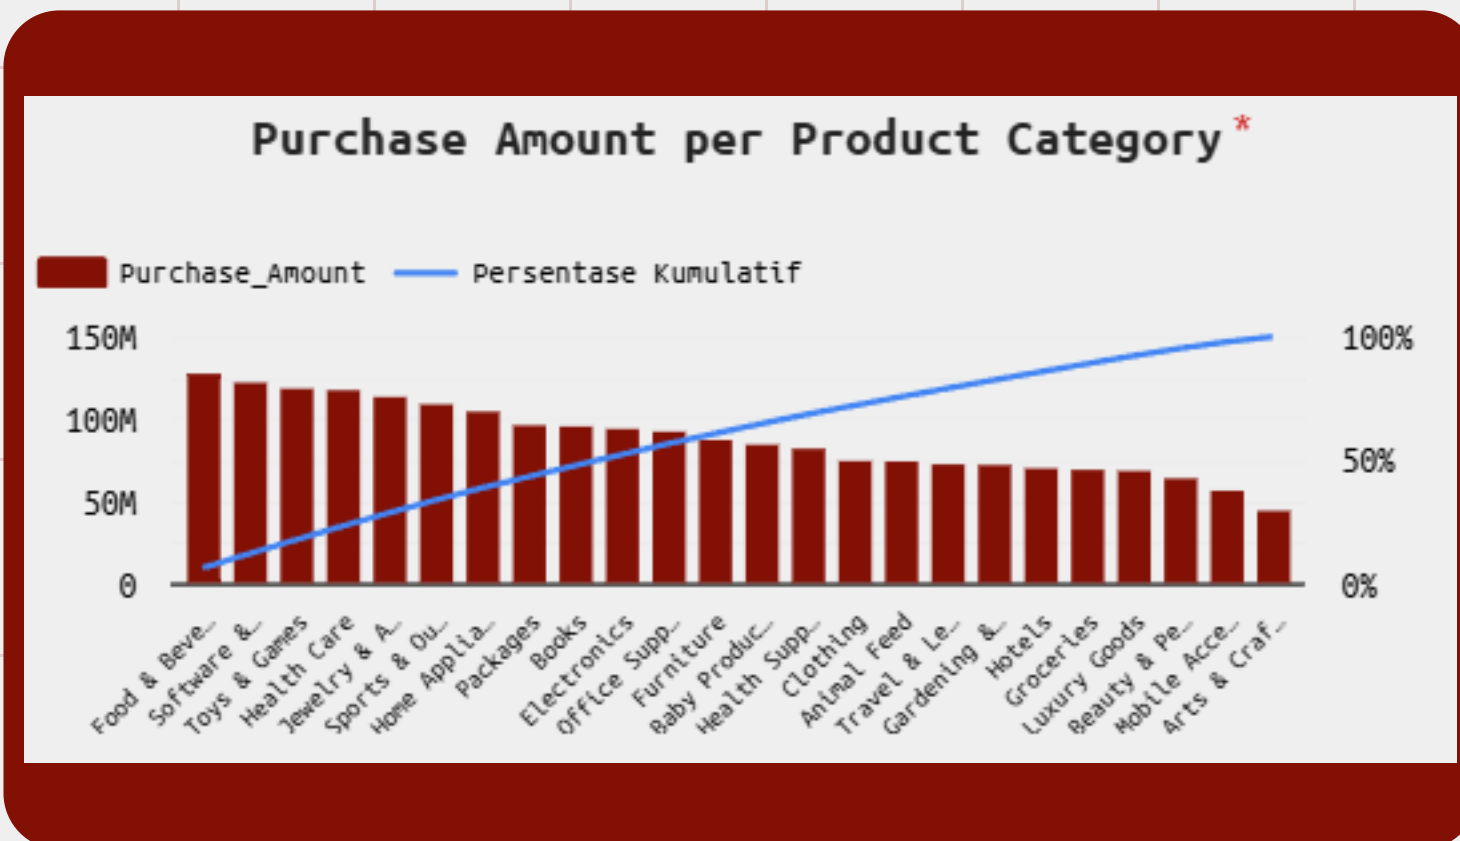

Business Impact

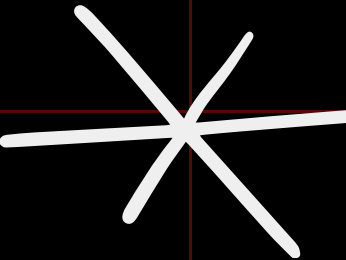

FINANCIAL IMPACT:

Stopping Margin Leaks

Giving continuous discounts to rational customers (Planned Buyers) who **actually intend to buy without discounts** is a form of wasting margin.

Without a **loyalty program overhaul**, customer retention will continue to decline, increasing the cost of acquiring new customers.

Recommended Actions – Main Strategy

JULY 2025 STRATEGY:

Moving Towards a Values-Based Approach

- Replace the **cheap discount** scheme with **Experiential Rewards** (automatic free shipping, quality physical surprise gifts).

- Shift social media content from simply **selling low prices** to **Buying Guides and educational features** for targeted buyers.

- Implement a **Staff as Advisor** program at retail store checkouts to drive digital member conversion via QR Code.

JULY 2025 ROADMAP:

Week 1 & 2 (Focus: Territory Acquisition & Premium Retention)

Experiment Roadmap – Weeks 1 & 2

WEEK 1

Activation of the
"Goldmine" Regional
Cluster

- **Target:** **Women** (Surabaya & Jakarta)
- **Primary Channels:** **Online** (Apps & Targeted Digital Ads) & **Mixed**
- **Tactical Actions:**
 - **Surabaya (Need-Based):** **Geo-fencing ads** + Automated Subscription System (Office & Home Care).
 - **Jakarta (Wants-Based):** **Early access** to the latest Lifestyle collection.

WEEK 2

Loyalty Program
Transformation

- **Target:** Active Members & Loyal Customers (Score 5).
- **Main Channels:** App, WhatsApp Business, & Email Marketing.
- **Tactical Actions:**
 - **Remove Discounts:** **Stop all direct discount voucher.**
 - **New Benefit:** Activate **Free Shipping Without Conditions & Surprise Premium Gift** for the first 100 transactions.

JULY 2025 ROADMAP:

Week 1 & 2 (Focus: Territory Acquisition & Premium Retention)

Experiment Roadmap – Week 3 & 4

WEEK 3

Multi-Channel
Integration and Upselling

- **Target:** **In-Store & Mixed** Customers (**Makassar, Medan, Bandung**).
- **Primary Channels:** **Physical Retail** (In-Store) & **Website/App** (Mixed).
- **Tactical Actions:**
 - **In-Store Actions:** **Product Bundling Strategy** ("Buy 3, Save More") to boost AOV.
 - **Digital Conversion:** **Double Points Incentive** for every Member QR scan at the physical checkout.

WEEK 4

Impulse Segmentation
Screening

- **Target:** Impulsive Buyers (**Bandung** & surrounding areas).
- **Primary Channel:** Mobile App Push Notification & **Live Ads**.
- **Tactical Actions:**
 - **Flash Sale:** A 2-hour **flash sale** for the Software & Electronics (Sleeping Giants) category.
 - **Urgency Copywriting:** "Last 3 units left in the Bandung warehouse!"
- **Evaluation:** Pulling transaction data to measure the increase in revenue per customer compared to June.

Conclusion & Next Steps

SECURING MARGINS, DRIVING SUSTAINABLE RETENTION

This 4-week experiment is targeted to restore growth in the average order value metric.

Next Steps?
Synchronize the analysis team, marketing creative team, and physical store operations.

THANK YOU !
